Ragged Point

Well like always we ended up with a good turn out for the Ragged Point Brunch Run. We had 21 cars go on the run all from just our club. The weather was perfect so we ended up eating outside on the patio for the brunch. It was great to see a lot of our newer members showing up to the events. We only had one small problem. Randy and Debbie Huhn had a small car problem so they limped in a little late still was able to join us for lunch and Randy told me they made it home just fine.

Again I want to thank Ragged Point Inn for hosting us, they saved us parking and the service was good considering they were feeding 35 people all at once.

I hope everyone who went on the run had a good time.

See you at the next event.

Brian.

Password

A woman was helping her husband set up his computer, and at the appropriate point in the process, she told him that he would now have to enter a password, something he could remember easily and will use each time he has to log on. The husband was in a rather amorous mood and figured he would try for the shock effect to bring this to his wife's attention. So, when the computer asked him to enter his password, he made it plainly obvious to his wife that he was keying in....

P E N I S

His wife fell off her chair laughing when the computer replied:
PASSWORD REJECTED - NOT LONG ENOUGH

Jon, I was at Pismo Derelicts this morning. There was a 1930 home built prototype of the Corvette. It is powered by the old hit and miss field engines of the era. GM saw it and liked the styling so they bought the rights for possible future use.
