

President message

Sincere appreciation

Rex and Georgia we thank you both for a great trip to Ojai, everyone enjoyed this event. My compliments for the special goody bags you provided for all of us. It set the tone for what was about to become a wonderful day. Thank you also for providing the special bottle of wine it was very special and thoughtful. Your hard work paid off my compliments to both of you for a "job well done"

The way to go Steve Wright !!!

Thank you Steve for taking care of "The Brick Project" All of us were amazed to see the pictures with our Brick already installed at the Veteran Memorial you are without a doubt a "I can do kind of guy". I urge all our members to visit the Memorial it really is worth the trip, you will be proud. Steve I appreciated your help with this patriotic project.

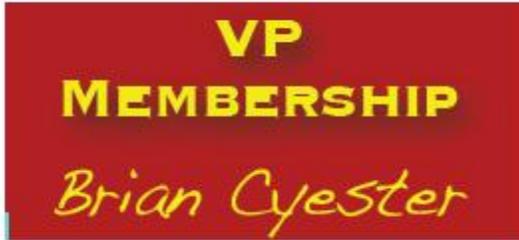

June & August Meeting sites changes

Historically our Club schedules a couple regular meetings at the Atascadero park. I will ask the members in attendance at our April meeting to vote on moving the June and August meeting presently scheduled in North County to meet at the park instead of the restaurant. In the past

we had volunteers who provided a BBQ (with a charge of course), another option is to bring your own.

The Website

Don't forget to visit our Website you will be impressed, who knows you might see your picture it's a great opportunity to keep up with our Club news past, present and future. Jon thank you so much for your contribution.

Membership.

We have 55 paid memberships.

At our meeting on March 9th. I introduced new members Dwight & Linda Wood. They have a 2007 Blue Coupe and live in San Luis Obispo. I also welcomed visitors John & Jacqueline Napolitano. Remember when you see these new members at an event or meeting please go up to them and make them feel welcomed, and remember to wear your name badges so they can remember who their talking to.

Members Story

One day long ago, Lupe and I were at the Chevrolet dealership just looking at cars and trucks. A salesman approached us and inquired if he could help us with anything. There was this little silver Corvette, 2 or 3 years old. I told Lupe that most boys where I grew up always dreamed of owning a Corvette one day, so we test drove the Corvette and for some reason, she did not like it (she was the passenger). So, she bought an Escalade EXT. Well, she drove that until the wheels about fell off. Then she mentioned maybe it was time to trade it in because it was compiling a lot of miles. At this point, our friends Mark and Tina Palmer had just bought their Corvette from a friend that had been selling both of us cars for years. After riding and driving Marks, I noticed it was much different than the one we had tested years earlier. So, I went to see what was at the local Chevy Dealers and found this 2006, Le Man's blue, 6 speed. I took it our for a test drive while Lupe was at work. Wow! What a bitchin car! I kept asking Lupe to go visit the dealer after she got home from work for several days. So, I arranged for the salesman friend to drive the car to our house after Lupe got home from work, around 6 pm. Surprised,

she took it for a short drive around the neighborhood and fell in love with it. No stinking 6 speed, standard shift scared Lupe! She learned to drive with a stick shift. So, guess what happened? She bought it! And has just loved it ever since. It is the most fun car we have ever owned. Kinda romantic? Lupe and I are happy we joined SLO Vettes and really appreciate all the Good People we've come to know and call friends. We are happy and proud to be members of SLO Vettes!

Linda and I have been married 43 years and still find something exciting daily. I grew up on Arroyo Grande and am a 4th generation A.G. (my great grandmother was postmistress of Pismo Beach in 1894; she had the only store and telephone). Linda grew up in east Texas (her family worked the oilfields around Tyler in the 20's-40's). I graduated from Arroyo High in '63 and pretended to be a college student until '67 when I dropped out for a semester and promptly got drafted. At the indoctrination center we were separated into 4 groups; the 1, 2's and 3's went into the Army, the 4's went to the Marines. I was a 2 and went to Ft. Bliss for basic and Ft. Sam (San Antonio) for medic training, got stationed there and met Linda in '68, married in '69 when she graduated college as an RN, spent my whole army career in Texas (very lucky). After the Army and two kids later, I graduated with degrees in chem and bio. 1972 time to move to Alaska and we were there until 2011, when we permanently moved back here. Who says you can never return home? We have moved Linda's mom out here from Texas and she is the last remaining senior member. Did lots of jobs in Alaska; chemist for Union Oil, operator on the north slope for Arco, commercial fisherman and retired as a professor from the University of Alaska. Taught at a junior college in Soldotna, Alaska. Linda was an office nurse for many of the local doctors. Sold my bush plane (cub) and bought a hot rod. It's nice to be here!~

Hello. My name is Tim. My dad was a Corvette guy, and he died in February. I'd love to keep his vette, but I unfortunately can't afford it. So, I'm going to sell it, pay it off (he's owned since 2005) and pay off his other debts (hopefully). Not sure if any club members are interested. He kept it in fab condition, unfortunately sitting out right now. It's a 2005 silver Corvette, only 40K miles on it. Treated like gold. See the attached photo. Doesn't do it justice. I'm looking for only Blue Book - it's in top condition.

Let me know what you think. Thanks.
